FOREWORD

Now that the war is over and the country is gradually swinging back to normalcy, we can once again present to the people of North Carolina that old time-honored institution, the North Carolina Fair, which in the past has contributed so much to the entertainment and general well-being of Tar Heels everywhere.

This exposition, which has been under the watchful guidance of the State Department of Agriculture since 1937, has steadily improved through the years, broadening the scope of its activities and presenting at one sweep the widely variegated facets of North Carolina projects which have their birth in the soil.

The State Fair, like so many other worthwhile events, has lain dormant since 1941. When our 300,000 farmers were responding to the Government's call for ever-increasing goals of production, patriotism made it impossible for the State Fair to present North Carolina Agriculture at its best.

But now after five long, hard years we are delighted that this old friend, with none of its education and entertainment advantages impaired by its dormancy, has returned to make the peace-loving hearts of North Carolinians light again this autumn.

Respectfully yours,

R. Gregg Cherry,

Governor of North Carolina

regg Ther

R. GREGG CHERRY, Governor

State of North Carolina Department of Agriculture Raleigh

W. KERR SCOTT

TO ALL NORTH CAROLINIANS

Due to the fact that we have had no State Fair since the autumn of 1941, I am sure that the people of North Carolin will welcome this opportunity to take stock of the gains made by agriculture and industry during the past five years.

During this time, our land has been more productive than ever before. We have established, both in total production and acreage yields, records for corn, sweet potatoes, tobacco, wheat, and other crops. The horn of plenty on the North Caroli Seal has never been more applicable to agriculture in this Stathan during this period.

However, during the busy years of the war we did not have the time to meet as neighbors and to talk leisurely of the past and to plan for the future. This North Carolina neighbor hood was torn asunder by the war, and it is time for us to become acquainted with each other again.

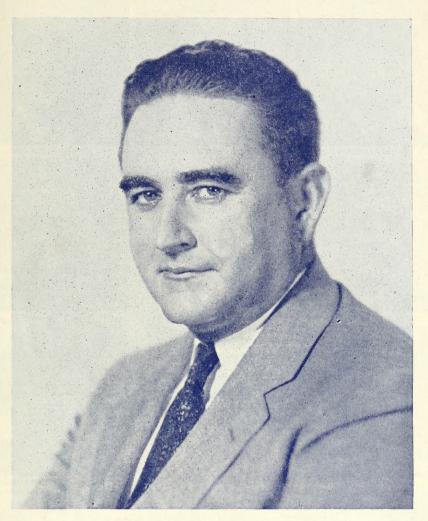

At the State Fair, we can meet together and talk together as in the peaceful days before 1941. There will be agricultural exhibits from the mountains and from the coast. Our boys and girls and their parents will have the State's beson display. This exposition will indeed present in colorful pageantry North Carolina's cornucopia.

In many ways this eighty-sixth State Fair will prove even more interesting and more helpful than any of those which have preceded it, for the people of the State will be able to see a half-decade of unprecedented agricultural progress.

Respectfully yours,

W. Kerr Scott

Commissioner of Agriculture

Individual Farm Displays of North Carolina

The farm display must represent the individual farm and farm activity of the exhibitor. Each item in this display should be a miniature exposition and it should be the purpose of the exhibitor to make each item carry the proper relationship in showing a well balanced farm and home program.

The display should be balanced with not too much of any one thing being represented. It is not so desirable to just collect a number of items, but rather to make the exhibit reflect the entire farm operation.

Regardless of the score card the display should be attractive and appealing to the eye. It should prove educational so that practical lessons may be drawn from it by farmers and others with reference to farm and home management as well as production and marketing practices.

The premium money offered in this department is sufficient to warrant the best efforts of the exhibitor and exhibitors are assured down to the twelfth place of a premium which will help defray the expenses of bringing an exhibit to the fair.

Each exhibitor will be allotted space twenty running feet frontage and twelve feet depth. The sidewalls and back may be arranged as the exhibitor sees fit. The height of the exhibit shall not exceed ten feet. A neat sign identifying the farm and farmer should be displayed with each exhibit.

Entry blanks will be furnished upon request to the secretary of the fair. Your entry on proper blanks must be in by Saturday noon, October 12.

Each exhibitor will be required to file an affidavit with the Secretary of the Fair not later than noon Monday, October 14, that all agricultural products shown in the display were produced on his farm.

The following Premiums will be awarded:

Note to Exhibitors: It will avoid confusion and add to the exhibitor's convenience if, so far as possible, entry blanks covering each exhibit to be entered for premiums be filled out in advance and mailed to the Secretary, North Carolina State Fair, Raleigh, N. C. When this is done the entry tags are made out in advance ready for the exhibitor on arrival. This avoids much waiting. These entry tags should be secured at the Entry Clerk's office and presented to the superintendent of the horticultural department or his representative at the same time exhibits are delivered to the department. Entry blanks and catalogs listing the premium classes can be secured upon application to the Secretary. Read rules governing entries, exhibits and awards, pages 13 to 26.

The Department Directors and Exhibitors may have the exclusive use of the lawn in front of the Exhibit Buildings for parking until Tuesday morning, October 15th.

All Exhibitors who will mail in their entry blanks prior to October 14th will find their entry tags made and ready for them upon arrival. Please give rural route number or city address on entry blank.

Fruits and Nuts

Judge: M. E. Gardner, Horticulturist, State College, Raleigh, N. C. Entries close 12:00 Noon, Monday, October 14, 1946.

Entries open to individual growers and orchard companies of North Carolina.

Important. Each exhibitor should read the following carefully: As far as possible, it is desirable that horticultural exhibits be brought in and set up by the growers. Where this is not possible the Superintendent will be glad to receive and place on exhibit all suitable horticultural products sent in. However, the Superintendent will not pack box, basket or barrel entries for exhibit. These must come in already packed. All exhibits competing for premiums must be grown in the State.

In sending in fruit for exhibition, select only those specimens that are perfect in form and color, and free from all insect and fungus blemishes. Do not knock or shake the fruit from the tree, but pick each specimen by hand, taking care not to pull out the stem.

Fruit should be exhibited as nearly as possible in its natural state, and no preference will be given highly polished fruit by the judges.

Fruit to be exhibited in trays, and in plates, should be carefully wrapped and packed. Each fruit should be wrapped separately in paper and packed firmly in box or barrel, taking care to avoid bruising. Label each variety plainly and put in paper dividers to keep varieties separated. Do not use hay, fodder, excelsior, or any other dusty material in packing. Nail up firmly.

IMPORTANT — READ

If exhibit must be shipped, address each package plainly to "State Fair, Department of Horticulture, Raleigh, N. C." Each package should be plainly marked with the name and address of the exhibitor. Each package should be plainly marked giving the class in which contents are entered.

PLATES. Plates for the variety exhibits of fruits will be furnished free by the Fair. A perfect plate of fruit should contain five specimens, and no more, characteristic of the variety, with stems attached, of high color, uniform, marketable size, free from cuts and bruises and all insect and fungus blemishes. If additional specimens are sent in by growers, the Superintendent will select and place on exhibit the best possible plate to be made from all the specimens submitted. Shipping six apples is recommended for a plate of 5 apples.

TRAYS. The dimensions of the trays are $11\frac{1}{2} \times 18 \times 3$ inches inside measurements. The exhibitor should make a tray of the required dimensions and pack each variety to be displayed in this class, in order to know how many apples are needed. Four or five extra apples per tray should be sent in order to allow for rot and damage in transit.

BASKETS. Commercial basket apples should be graded to uniform size, high color, freedom from bruises, insects and fungus blemishes. They should be properly packed and ring faced in standard bushel baskets.

GENERAL RULES. A premium offered for a general collection of fruit will not be awarded to a mere pile of apples, or other fruit, but must be a real collection, arranged on plates and all correctly labeled, and no fruit will be counted in a collection unless it is a fair specimen of the variety. No trashy fruit of any kind will be counted merely to make up a collection. A premium for the best collection of grapes, peaches or any other fruit will not be awarded for a mere number, but to the quality of the exhibit mainly. Fruit entered under the heading "Any Other Fruit" should be named, if possible, by the exhibitor.

The Superintendent and judges may withhold premiums in any class where the article is not worthy. Exhibitors entering fruit which has been shown before or at other fairs will be penalized by the judges.

No attention will be paid by the committee to any fruit or other exhibit that is not arranged in accordance with these rules.

All fruit must be shipped or brought in so as to arrive at the Fairgrounds not later than Monday at 10 a.m. of Fair Week, charges prepaid.

The awards for fruits will be made as soon as possible after the opening of the Fair.

No exhibitor will be allowed to discuss exhibits with the judges, or to interfere in any way while the judges are at work.

All fruits shown for premiums remain in place until the close of the Fair, at which time they must be claimed by exhibitor by presenting his entry stub as a claim check.

In the nomenclature of fruits, the names adopted by the American Pomological Society shall rule, and no variety will be accepted that has not been admitted to their catalogue, except in the case of seedlings never before exhibited.

WHY JOIN THE GRANGE

One of the greatest contributions that the GRANGE has made to our rural life consists in the part it has played in fostering the interests of agriculture in the halls of legislation and in promoting the cause of good government. Before effective action can be taken in regard to any particular issue, there must be a campaign of education and a policy must be agreed upon. The machinery of the GRANGE is well adapted for this purpose.

The movement for better rural roads, rural electrification and telephone service, a price structure that will give farmers an income comparable with non-farm groups, mutual insurance services and other programs designed to improve the rural homes, churches, schools and civic life as a part of the GRANGE pro-

gram are as old as the organization itself.

Projects of this nature are as vital a part of GRANGE activities as better agriculture itself. That is why thousands of progressive farmers belong to the North Carolina State GRANGE why membership continues to grow-why the GRANGE is a dominant force for social progress.

Plants and Flowers

Judge: J. G. Weaver, Assistant Professor, Horticulture, State College, Raleigh, N. C.

Exhibits must be grown in North Carolina

Entries close 12:00 Noon, Tuesday, October 15, 1946

If necessary, exhibits may be shipped to the State Fair, Department of Horticulture, Raleigh, N. C., but flower exhibits are generally brought to the Fair by exhibitors, owing to their perishable nature. If shipped, they should be packed carefully and the shipment should be accompanied by an entry blank properly filled out and addressed to the State Fair. Catalogs and entry blanks may be obtained from the Secretary's office or on request by mail to the Secretary. Even when flowers or plants are being brought to the Fair, entries should be made in advance by mail addressed to the Secretary, N. C. State Fair, Raleigh, N. C., who will gladly furnish entry blanks for the purpose. When exhibits are brought to the Fair the exhibitor should call first at the desk of the entry clerk and get entry tags, then the exhibits and tags corresponding should be delivered to the Superintendent of the Department, who will put the exhibit on display. It will greatly facilitate matters for the exhibitor as well as the Fair if entries are made in advance by mail, as this permits writing up tags before the rush and having them ready for the exhibitor on arrival at the entry clerk's desk. The time for closing entries is set late (Tuesday noon) to accommodate exhibitors of cut flowers. Other exhibits, such as potted plants, bulbs, etc., should be entered earlier-not later than noon Monday of Fair Week. Exhibitors should be sure to get their claim check as they turn over exhibits to the Department. These claim checks should be carefully kept by the exhibitor and brought back at the end of the Fair for use in claiming exhibits. The Superintendent of the Department has no other means of identifying exhibitors and cannot be expected to give out exhibits unless claim checks are presented. Exhibits should be claimed between 4:00 P. M. and 10:00 P. M. on Saturday of Fair Week.

In the Rural South

It's Progressive Farmer

THE SOUTHERN PEOPLE are the same kind of folks all over the South. But their soils, their crops and their agricultural problems vary sharply with every few hundred miles.

SO IT IS IMPORTANT that their farm magazine vary its editorial content sharply for each of the five areas.

THE COMMANDING POSITION of *The Progressive Farmer* in the rural South—and it reaches the leading million rural families—is largely due to the fact that there are five separate editions a month, each with its own special editorial treatment, by its own localized staff.

ADVERTISING ALONGSIDE editorial matter as intimate as this, is sure to be more carefully read and more surely acted upon than advertising alongside abstract and general editorial material. It costs *The Progressive Farmer* a great deal of money to do it this way—but it pays our advertisers well.

CUT FLOWERS

Cut flowers must be in place ready for judging by 12:00 o'clock Tuesday of Fair Week soon after which they will be judged. In bringing flowers to the Fair, especially dahlias, they should be carefully packed in boxes without crowding in order to preserve the petals against injury. Damage to petals, especially in the case of dahlias and roses, may affect the score when judging. Flowers should be kept from automobile drafts as much as possible when transporting. In judging classes 196 to 202 inclusive, consideration will be given to the following points: (1) The artistic arrangement of the flowers in the container-60 points; (2) The quality and condition of the flowers-40 points. Emphasis will not be placed on the rarity of the flowers exhibited. In these classes the exhibits must conform to dimensions or conditions stated. The dimensions refer to flowers, baskets, basket handle and any ribbon or other attachment. In other words, the dimensions over all. If any dimension is greater or less than class calls for, the judges will have to disqualify the entry. Exhibitors are cautioned to see that their baskets are entered in the class conforming to their size. In classes 199 to 201 the exhibit should be appropriate both as to breadth and height over all, including container, for the size of table stated. The judges will consider whether the exhibit is appropriate for its class as well as considering the artistic arrangement of flowers in the container and the quality and condition of the flowers. Except in classes 196 to 202 inclusive, all cut flowers will be exhibited in vases.

MISCELLANEOUS

This class is for the purpose of stimulating new interest. Entries should be in place by 4:00 P. M. Monday of Fair Week. Dish gardens may be arranged on plates, platters, trays or dishes of any reasonable size. They will be judged on the basis of the craftsmanship of the exhibitor, the artistic qualities of the exhibit and the quality of materials used. The exhibit may represent Japanese gardens, landscapes, farms properly planted, homes or any other feature. Plant materials should predominate, but any kind of material can be used. To the extent necessary materials such as mirrors, rocks, ornaments, wood, etc., may be used. It is suggested that the exhibitor limit his exhibit to reasonable size and no exhibit should have any dimension greater than 36 inches.

The foregoing suggestions apply also to terrariums. The type of exhibit desired in this class is much like the dish gardens, except that slightly different materials should be used, the materials being placed inside a glass container covered for the purpose of maintaining moist conditions and plants prefering such moist conditions, such as mosses, ferns, etc., should be used. Credit will be given by the judges to the craftsmanship, the condition of plant materials, the number of kinds of plants in the exhibit, and the general artistic values of same. These exhibits should have unity, variety, propriety, coherence and finish.

Under the entry for meritorious novelty or floral exhibit any plant or flower or other related novelty can be exhibited. Each will be judged first as to its merit or quality in such a class and if considered meritorious by the judges will then be judged in competition with any other meritorious entry.

Lincoln might well have had the Farmers Cooperative Exchange in mind when he said:

"... Of the People, By the People, And For the People"

The Farmers Cooperative Exchange is made up OF the people from the farms, small towns and cities of North Carolina, and is operated BY the members. One member, one vote. All management is under the direction of the Board of Directors, elected in open meeting by vote of the members. It incarnates the public interest because it is operated FOR the benefit of its patron-owners and not for profit for investors. No great financial hurdles must be cleared to share in the benefits.

In 1945-46, 42,000 patrons in the two Carolinas purchased farm supplies through FCX warehouses and dealer-agents amounting to \$15,000,000 at substantial savings.

You, too, can share in these savings, purchase quality farm supplies, open formula feeds and fertilizers, farm machinery, seeds, paint, steel, and many other items by visiting your nearest FCX warehouse or dealer-agent. Look for the sign—

All animals entered for exhibition must be in place not later than 6:00 P. M., Monday, October 14th.

All animals over three months old must be recorded and appear in the name of the exhibitor on the records of their respective associations. Animals recorded in individual names cannot be shown in name of firm or of the farm, but must be shown exactly as they appear on the records. This rule is fair, and will be strictly enforced. See rules.

Exhibitors must be prepared to show certificates of registration if called for.

The judges are requested to give special attention to actual merit and in order to avoid mistakes it is their duty to inquire as to time of shearing, manner of fitting, age of lambs, etc.

Misrepresentation in any form on part of exhibitor or agent forfeits all premiums awarded.

FOUR DAUGHTERS of HIGH POINT PRINCE MAXIM

Prizewinners

Producers

Reproducers

These four daughters of High Point Prince Maxim. our great foundation sire, were not only blue ribbon winners in the show ring, but, more important, they have been great producers at the pail. Their sons and daughters have also carried on.

The get of this great sire have won the coveted blue ribbon at the most important shows in the United States and Canada. Seventy-six of his daughters have Advanced Register records; ten have official records exceeding 800 lbs. of butterfat in a year. No other Guernsey bull, living or dead, has equalled or even approached this record.

We usually have 50 to 60 well bred young bulls for sale as herd sires each year at reasonable prices to North Carolina farmers who want to improve the production and type of their milking cows. These bulls are by proved sires and out of cows that have good Advanced Register records.

Write us about your needs. Regardless of how much or how little you may have to spend for a bull, we will try to fill your order.

HOME DEMONSTRATION DIVISION

Department I

MRS. MARY L. McAllister, Extension Economist in Food Conservation and Marketing General Director

Home Demonstration work has grown from the original canning clubs to include all phases of homemaking: food and nutrition, food conservation, clothing, housing, house furnishings, home management, and family relationships. Each is equally important in developing a well-balanced home life in which happy, healthy people are to live.

It is the purpose of these exhibits to show how each of these phases of homemaking can strengthen the smallest unit of the world, the home and contribute toward building a better world.

This department desires high standards and good workmanship. Please send only the best to us. Let's make the department the best at the State Fair by checking our standards.

Entries are confined to North Carolina.

Entries in all departments close Monday, October 14 at 1:00 p. m.

Entries in all departments must be made on printed forms provided by the Secretary for that purpose and must be in full compliance with printed instructions on same. Exhibitors should study the list carefully, and when decision has been made in which classes to enter, fill out the entry blank with class number and name as they appear in the Premium Book. Do not send articles for exhibit without first having had them entered by October 12, 1946.

Note the above date for closing entries in this Department. Positively no entries will be accepted on the first day of the Fair.

Articles entered in single classes cannot be shown in displays.

All entries must have been prepared by the exhibitor within the year 1946. Anything that has been entered at a previous State Fair will be disqualified.

Only one entry from an individual will be allowed in any one class.

The Department Directors and Exhibitors may have the exclusive use of the lawn in front of the Exhibit Buildings for parking until Tuesday morning, October 15.

All Exhibitors who mail in their entry blanks prior to October 14 will find their entry tags made and ready for them upon arrival.

Please give rural route number or city address on entry blank.

In order to award the premiums correctly in this department, it is necessary to open the containers for tasting.

The Best Is Always the Cheapest

Introducing A Down and Up-Draft Tobacco Barn Oil Curer

THE LEGGETT

DUE TO DESIGN

You can get all the heat wanted without turning the flues red. A real protection against fire.

HEAVY CAST BODY

All parts are heavy cast iron, assuring satisfactory service. Flame is entirely enclosed in the cast body with no leaks and is much safer than ordinary brick furnace. Use your present flues. Installation for all barns.

A unit that will turn your oil into a gas and then burns the gas. The up-draft feeds the flame and the dawn-draft fans the flame into a level fire in the middle of the flue, assuring equal distribution of heat throughout the barn by use of two burners at no additional cost.

OIL CONSUMPTION

Lower fuel consumption due to up and down drafts. Absence of carbon automatically assures efficient operation. No citting up at night.

ALL REDNESS OF FLUES AND BURNERS ARE ELIMINATED

The design of this burner does not require artificial means to eliminate redness of burner or flues. No wicks or thin metals to be replaced.

LOST COST IN PRICE

Our price covers the cost of two burners with all operating parts installed at \$150.00. This applies to all barns from 16x16 to 22x22.

The Leggett is nothing new or experimental. DISTRIBUTORS IN NORTH CAROLINA

4-H BABY BEEF EXHIBIT 4-H DAIRY EXHIBIT 4-H SWINE EXHIBIT

Because adequate housing space for animals and living accommodations for 4-H members are not available, these departments have been eliminated for 1946. In the near future the State Fair hopes to reestablish these departments.

All 4-H Club members are invited and urged to exhibit their animals in the open classes. Pages 85-118.

4-H CLUB HOMEMAKING DIVISION

The exhibits shown in this department represent the results of 4-H home-making demonstrations. The exhibitors have been selected on a basis of outstanding project work and must have excelled first in their own county and district.

The group system of judging will be used, that is, all exhibits will be divided into three or more groups, such as Excellent or Blue Ribbon Group; Good, or Red Ribbon Group; and Creditable, or White Ribbon Group. The prize money available will be divided so that the blue ribbon winners in each class will receive an equal amount; red ribbon winners will receive less money; the white ribbon winners a smaller amount than the red; and exhibits placed in a lower group will receive no money.

In this way, all exhibitors may know how their products compare with products of others exhibitors.

- 1. Any county or city administrative unit may submit one application. The exhibit may represent the work of one or more schools in the administrative unit.
- 2. The theme for the educational exhibits will be "Educating Youth for the Responsibilities of American Citizenship." In so far as possible all exhibits should be tied up with this theme. The exhibit may represent a unit of work from a classroom, the work of one or more grades or the school as a whole, provided there is a unifying element. Booths depicting the work of the school in developing self-realization, human relationships, economic efficiency, or civic responsibility will be especially appropriate. For example, a social studies unit designed to give students a clearer concept of the purposes and structure of government would have a very definite relation to the central theme. Art as a means of self-realization would likewise be apropos. Units on health, history, science, language arts, guidance and work in other areas will fit in well with the theme if the more pertinent phases of the work are shown. It is hoped that the exhibits as a whole will show that the public school is the nation's most effective agency for the preservation and advancement of American democracy.
- 3. Applications will be considered in order received but the committee in charge of applications reserves the right to reject any application received in order that the different phases of school work may be exhibited, due notice of rejection or acceptance of the application to be sent the applicant.
- 4. Counties and cities desiring to submit winning exhibits of local fairs may make a blanket application, the name of the school to be supplied not later than October 8.
- 5. Schools accepted by the committee will be furnished the necessary additional information and a diagram giving dimensions of the exhibition booths.
- 6. Applications should be filed not later than September 16, on blanks furnished by the State Department of Public Instruction, Raleigh, N. C.

HOME DEMONSTRATION CLUBS

Negro Home Demonstration work has grown from summer programs of canning foodstuffs to a year-round program of foods and nutrition, food conservation, clothing, housing, home furnishings, family relationships and home management in forty-two counties. These programs are basic because they recognize the fundamental needs of farm families.

These exhibits will show how a sound program of homemaking has made negro farm families better and healthier citizens in the State, and how the most humble home can make a contribution towards a world of peace and happiness.

BEGIN AT HOME TO MAKE BETTER CITIZENS

Three booths will be presented in this Division, using any of the following subjects: Foods and Nutrition, Food Conservation, Clothing, Housing, Family Relations, Home Demonstration Booths.

FARM MACHINERY AND TRACTORS DEPARTMENT

Department O

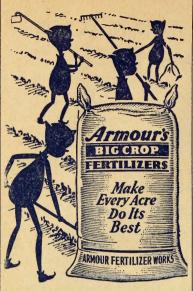

DAVID S. WEAVER, Director, State College, Raleigh, N. C.

The substitution of farm machinery and tractors for hand labor during the war period has demonstrated clearly to the farmers of North Carolina the possibility of using labor-saving equipment in most of our farm operations. The shortage of good mules, with the consequent high price, has further directed the attention of farmers to the advantages of tractors for field work. The development of smaller and smaller tractors, very versatile in nature and selling at reduced prices, has been another contributing factor to the greatly increased tractor ownership in the State. Although North Carolina ranks very high in the list of States in the total value of farm crops, we are still in a very low position when considered on the per capita income of farm workers. Undoubtedly this low ranking may be largely attributed to the fact that on the whole our farmers are not well equipped with modern, up-to-date, and efficient machinery.

Practically every farm machinery manufacturer of any size is concentrating on the future market in the southeast because they, together with other leading industrialists and thinkers of the Nation, realize that to a very large extent, the future of the Nation, in its ability to produce raw materials, lies in the South.

The coming State Fair offers a wonderful opportunity for manufacturers of tractors and farm machinery to bring to the attention of thousands of rural visitors the many advantages in modern equipment use, and to point out the improvement in design and efficiency of the latest models. A large area has been set aside on the fair grounds in a most advantageous location for the display of tractors and farm machinery. This means that this prominent position will bring practically every fair visitor to the exhibit of farm machinery. An area for demonstrating tractors, machinery, and trucks is available. Manufacturers may obtain space for displaying their products by writing the Manager of North Carolina State Fair, Raleigh, North Carolina. This space is available at very reasonable rates and applications should be filed as early as possible.

All exhibits must be completed for public inspection by Monday, October 14th, 1946.
